

Sample Well Security Device

Bass & Hayes
Foundry, Inc.
238 South Bagdad Rd.
Grand Prairie, TX 75050
214-263-1360
800-258-2278

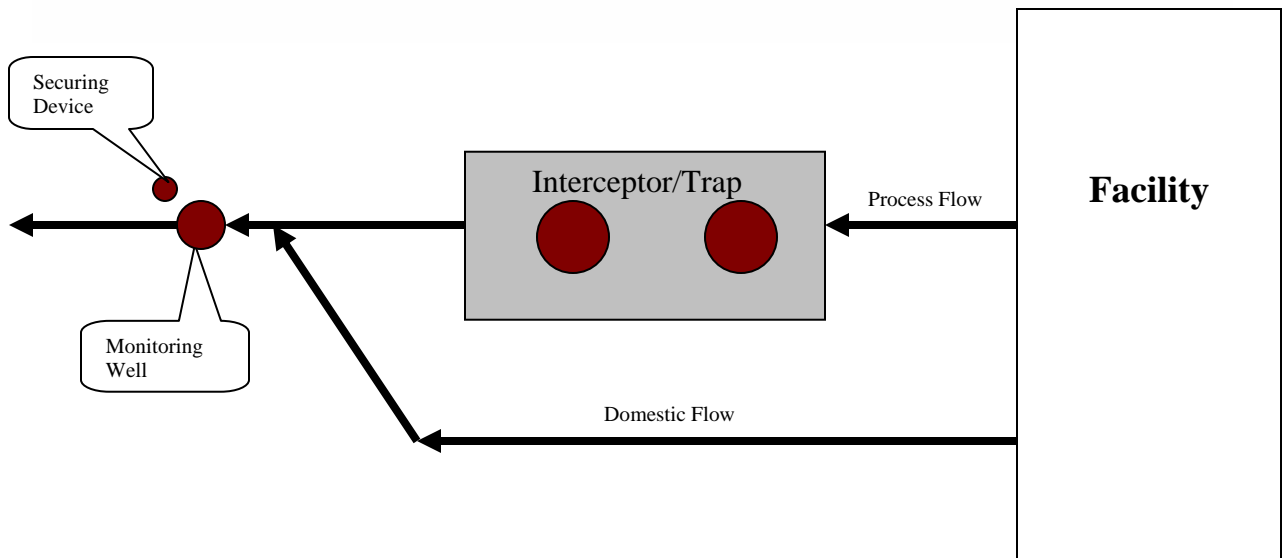

350-4 Ring & Cover

for 6" PVC pipe

RING 9 lbs.

LID 4 lbs.

SET 13 lbs.

Please note: When multiple suites are discharging into the same domestic sewer line/gut line, the domestic wastewater flow will not be required to be tied in prior to the sampling point.

The Bass & Hays securing device cover (top right) is a pattern #350-4. This device is used to cover an eyebolt that has been set in concrete. The securing device is used to lock down automatic samplers. The securing device should be installed within two feet of the sample well.
